

What 3 topics have your interest now?

1. Where they're going

2. Emotions

3. What their 'pearl' is in this specific area

What people are in your area and with what purpose?

You have a lot of different people in this area but the most outstanding were the tourist and the youngsters.

The tourists are friendly and happy because they're on vacation. Most of the time around their 40s and they have children. The youngsters are more into the artsy stuff. Their chilling in the park, drinking beer and are most interesting in the architecture

An industrial area with a few touristic must sees. When you walk more into the area you will find a lot of small stores and bars where you can for example eat fresh fish.

People are nice, there is a lot of water, there are a lot of bars and fish restaurants, there are a lot of boats and a lot of construction workers.

description of your area:

What knowledge do you think they might have?

Insides about the sphere over there and how people communicate with each other. What makes this area different from the others?

What organizations, people, museums, companies might have interesting information about the area? The Viskantine, Garage Ertan, The Chinese boat, Pannenkoekenboot, but also the people who are working on a building at the Kratonkade

How can you link this to your interests?

A few are unknown places that are not that touristic, and they know the people who live there. Not only the tourists. I talked to the workers at Kratonkade and they were working there almost every day. they were kind and helped me with my school project. I want to know more about them and their background story.
